USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR LANGTRY WATER SUPPLY CORPORATION

LANGTRY, TEXAS, October 8, 2004 – Texas USDA Rural Development State Director, Bryan Daniel, announced today that Langtry Water Supply Corporation received a \$159,210 Water and Waste Disposal grant through the agency's Community Programs Water and Waste Disposal Grant fund. The effort is part of the USDA's national program to help provide rural areas with safe, dependable water and modern sewage systems.

"One of the goals of USDA Rural Development is to provide water and wastewater treatment programs that target public health benefits and provide economic opportunities to rural Texans," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance their quality of life."

The grant funds for the Langtry Water Supply Corporation will be used to construct a new 25,000 gallon ground storage tank, install new meters, distribution lines and a new deep well pump. Approximately 26 users will be served by this project.

In Fiscal Year 2003, \$64.4 million of loan and grant assistance was infused into 71 projects and assisted 137,451 rural Texans. USDA Rural Development's water and wastewater program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America's 53 million residents. Loans and grants are available to rural communities with fewer than 10,000 residents. Public bodies, corporations operated on a nonprofit basis, and Indian tribes that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.

For more information regarding USDA Rural Development programs, contact the Uvalde Local Office at (830) 278-9503, Ext. 4.

###

USDA Rural Development was created in 1994 and includes Business Programs, Housing Programs, and Community Programs. Its mission is to use the resources of USDA to provide an improved quality of life for the nation's rural residents.
